

# Crompton Instruments DRM-32-1P - Summary Sheet

## Summary

The DRM-32-1P is an MID approved, one module wide, DIN Rail mountable, single phase electricity meter manufactured by Crompton Instruments in Italy.

This 32 Amp single phase meter sets itself apart from the competition by including import and export Energy (kWh) readings as standard. In addition it records Active Power (kW), Current (I), Voltage (V), Power Factor (pf) and Frequency (Hz) which makes it a more complete unit than many other one module wide DIN Rail meters.

The meter comes with a pulsed output which is proportional to the kWh measurement. Additional comms are available through a one module wide comms module, these are read through an IR port available on the meter. Comms options are: M-Bus (DRM-M); Modbus-RTU RS485 (DRM-MOD); SD card data logger (DRM-LOG) and a power supply transformer for data loggers (DRM-LOG-PS).

N.B. This meter can be fitted into a DIN Rail enclosure. [Click here](#) to see our full range of Enclosures.

## Product Code

**SPDCR32P**

## Meter Type

**Single Phase**

## Fitting Type

**DIN Rail**

## Max Current (Amps)

**32**

## MID Approved

**Yes**

## Smart

**No**

## Input Type

**Direct Connect**

## Output Type

**Pulse**

## Tariffs

**Single**

## Import / Export

**Import & Export**

## Module Width

**1**

## Availability

**Next Day**

## Condition

**New**

## Brand

**Crompton  
Instruments**

## Country of

**Italy**

## Manufacture

## Dimensions
