

## CT Chamber - Summary Sheet

This CT Chamber was designed for UK Power networks but can also be used in BNO sites throughout the UK, (i.e. Building Network Operators; a landlord responsible for the supply network within a multiple occupancy building).

The chamber is designed to mount the electricity meter and house the CT's and this insulated enclosure is tamper proof and sealable. The backplate can be detached to make mounting easier and each phase can be worked on without having to isolate the complete unit, due to the individual covers.

### Dimensions

### Part Codes

Includes 3 x 200/5 CT's – Cl. 0.5S CTCHUKPN2

Includes 3 x 400/5 CT's – Cl. 0.5S CTCHUKPN4

### Benefits

- 🔧 Lugging tool not required
- 🔧 Switch off and safely work on a single phase
- 🔧 CT's quickly and securely clip onto a terminal rail
- 🔧 Pre-wiring is included for connection to CTs and Meter
- 🔧 Safe and easy to operate testing unit
- 🔧 Approved & Specified by UKPN
