

Eastron Easy Click Split Core CT's - Summary Sheet

The Easton Easy-Click range of Current Transformers (CT's) is designed to simplify installation with a "plug and play" approach, ensuring fast, reliable, and error-free setup.

Known as the ESCT series, the range is suitable for supplies from 5A to 500A and is available in three case sizes to accommodate various cable types.

Each CT connects via an adaptor, allowing an RJ12 cable to plug in to a compatible meter, eliminating the need for complex wiring.

Compatible Meters

- Easton SDM630MCT-ML
- Easton X96-1

NOTE - This range of CT's cannot be used with Easton Easy Click meters without the CRJ31 Adaptor. Three CT's can be connected to each adaptor.
