

## OWL + USB Three Phase Energy Monitor with Large Sensors

### Summary

The OWL + USB allows monitoring of live consumption for a property, as well as access to historical and average readings for up to two years using the In-Home Display.

The unit displays greenhouse gas impact, date and time as well as energy usage and cost. It supports block and economy7 tariffs, as well as flat-rate. Installation & setup is simple and doesn't require an electrician.

The In-Home Display features a USB connection, allowing 30 days of data to be downloaded on to a USB stick and transferred on to any Windows PC or laptop. Dedicated software can be downloaded from OWL's website allowing you to view data in a graphical format.

Large sensors support cables up to 17mm in diameter with a maximum 200A load. There is a standard sensor version available for smaller electrical supplies (up to 72A and 10mm diameter cables). A single phase version of this Energy Monitor is also available.

### Product Code

EMUTPL

### Power Supply

Three Phase

### Max. Current (Amps)

200

### WIFI Enabled

No

### Import / Export

Import Only

### Sensor Aperture Size

17mm

### Availability

Next Day

### Energy Monitors Compared

	Power Supply	Max. Current (Amps)	WIFI Enabled	Import / Export	Sensor Aperture Size
Micro+ Single Phase	Single Phase	72	No	Import Only	10mm
Micro+ Three Phase (with Standard Sensors)	Three Phase	72	No	Import Only	10mm
Micro+ Three Phase (with Large Sensors)	Three Phase	200	No	Import Only	17mm
+ USB Single Phase	Single Phase	72	No	Import Only	10mm
+ USB Three Phase (with Standard Sensors)	Three Phase	72	No	Import Only	10mm
+ USB Three Phase (with Large Sensors)	Three Phase	200	No	Import Only	17mm
Intuition-E	Single Phase	72	Yes	Import Only	10mm
Intuition-PV	Single Phase	72	Yes	Import & Export	10mm
Intuition-LC (with Standard Sensors)	Three Phase	72	Yes	Import Only	10mm
Intuition-LC (with Large Sensors)	Three Phase	200	Yes	Import Only	17mm
