

Europa 4 Module DIN Rail Meter Enclosure – Summary Sheet

Summary

This ABS 4 Module enclosure with polycarbonate lid comes complete with DIN Rail.

It's flame retardant, has an IP rating of 65 and is CE approved.

With Earth and Neutral terminals included, this enclosure is suitable for din rail mounted electrical distribution products.

Stephen P Wales supply a wide range of **single phase** and **three phase** DIN Rail meters. We can also **pre-wire** any CT operated meter into your enclosure, allowing for a simple, hassle free installation upon delivery.

Pre-Wiring Service

Let our experienced meter engineers pre-wire your enclosure for you prior to dispatch, allowing quick and easy installation right out of the box.

This service is available with any of our CT operated DIN-Rail and Panel mounted meters, and we have a wide range of metal and plastic enclosures to suit. The service includes supply and installation of all terminal blocks and a 5 Amp fuse per phase, as well as supplying an auxiliary power supply to the meter.

Many of our enclosures can be fitted with multiple meters, and so this service is charged on a per meter basis. Simply select the meter/s required along with the required current transformers, include a suitable enclosure, and add the required quantity of this service. Not sure of your requirements, contact our friendly sales team who will be more than happy to provide you with an itemised quotation.
