

# Hylec Steel Meter Enclosure

## Summary

This steel enclosure from Hylec comes complete with a tough powder coated grey finish, galvanised wall mounting brackets and 168mm x 95mm gland plate. With a pre-wired earth and IP66, this enclosure is guaranteed for 3 years against corrosion.

Its solid door can be cut out for up to two panel mounted meters, or two DIN Rails can be fitted to the galvanised back plate, supplying up to 20 modules.

Stephen P Wales supply a wide range of [single phase](#) and [three phase](#) DIN Rail & Panel Mounted meters. We can also [pre-wire](#) any CT operated meter into your enclosure, allowing for a simple, hassle free installation upon delivery.

## Pre-Wiring Service

Let our experienced meter engineers pre-wire your enclosure for you prior to dispatch, allowing quick and easy installation right out of the box.

This service is available with any of our CT operated DIN-Rail and Panel mounted meters, and we have a wide range of metal and plastic enclosures to suit. The service includes supply and installation of all terminal blocks and a 5 Amp fuse per phase, as well as supplying an auxiliary power supply to the meter.

Many of our enclosures can be fitted with multiple meters, and so this service is charged on a per meter basis. Simply select the meter/s required along with the required current transformers, include a suitable enclosure, and add the required quantity of this service. Not sure of your requirements, contact our friendly sales team who will be more than happy to provide you with an itemised quotation.
