

### ABB Mistral DIN Rail Meter Enclosure Summary Sheet

This DIN Rail meter enclosure has been designed to make installation quick and easy. Meeting the most recent regulatory requirements, the internal space has been designed to make cables more accessible and special eye holes on the frame allow cable ties to be anchored securely.

The transparent door is fully reversible and has an ergonomic handle and snap-on closing, with an additional lock available for added security. Interior slots allow the enclosure to be fixed to the wall in points which are not visible from the outside.

Stephen P Wales supply a wide range of single phase and three phase DIN Rail meters. We can also pre-wire any CT operated meter into your enclosure, allowing for a simple, hassle free installation upon delivery.
