Electrical Metering Specialists

Three Phase Metering Kit with Schneider meter- Summary Sheet

Our three phase metering kits with Schneider meter are built for fast and easy installation and are ideal for retrofit applications. Our meter engineers pre-fit the required voltage reference and earthing with clear labelling and the flexible coils are pre-wired into the enclosure complete with 2.2m fly leads. The kit can be set to support loads from 500A through to 50,000A and the required ratio will be set on the integrator prior to dispatch.

This kit is available with one of three meters offering a range of features including pulse or Modbus outputs, dual tariffs or class C (Cl. 0.5) accuracy. All meters are MID approved making them suitable for billing applications.

Can't find a meter or CT to suit your requirements, contact our friendly sales teams who will be happy to put together a bespoke quotation.

What's included?

- 1 x 3-Phase Meter (MID Approved)
- 1 x Meter Enclosure
- Voltage reference and earthing terminals
- 1m of 1.5mm stranded blue, brown, black & grey cable
- 1m of 2.5mm stranded earth cable
- Power Supply for Rogowski Coils
- Set of 3 Rogowski Coils (457mm length)
