

Sangamo Prepayment Coin Meter – Summary Sheet

Summary

One of our longest serving prepayment meters, and still providing great value for money. An 60 Amp, non-MID approved meter which accepts either £1 or £2 coins and provides high security with a steel cash box.

All our reconditioned meters go through an initial inspection from one of our experienced meter engineers. The meter is then reset and zeroed, followed by a thorough clean, re-spray and second test to ensure accuracy and product quality.

While easy to program on site, we can pre-program your meter for you prior to dispatch. Just select the optional extra and enter your requirements upon placing your order.
