## How to Change Code – Ampy 5188A Prepayment Meter

---

1. You will have received a rental coder for “A”, “B”, “C” or “D” re-programming as shown below:

2. Ensure meter is live before initiating re-code.
3. Place the optical port of the coder against the optical receiver on the meter, as shown below:

4. Whilst the optical port of the coder is held against the optical area of the meter, press and hold the programming button of the coder. The coder will emit a beep lasting 2-3 seconds.
5. The digital display on the meter should read “Communication OK”.
6. The meter code will now have been successfully changed.

For any queries or further assistance, please contact us and a member of the Stephen P Wales team will be happy to help.
