

Emlite EMA1.z with Topupmeters - Summary Sheet

Perfect for HMO Landlords, Caravan Parks, Student Accommodation & Marinas, the Emlite EMA1.z with Topupmeters offers a convenient method for building owners to distribute electricity to consumers with quick online top-ups and funds distributed straight into the owner's bank account.

Suitable for single phase supplies of up to 100A, the Emlite EMA1.z offers landlords a modern solution to secondary distribution saving the inconvenience of traditional solutions such as coin & card meters. Consumers simply visit topupmeters.co.uk, enter their serial number and ID code before selecting how much credit they wish to add and checking out using their debit or credit card. The credit is sent to the meter over the mobile network with the funds paid to the landlord either through their own Stripe account, (Stripe is an online payment processor allowing you to receive credit & debit card payments), or via a monthly bank transfer. Additional features include:

-  manage meters remotely through the Topupmeters online portal
-  emergency credit available when balance is low
-  manual top-up supported via token entry, in the event of an issue with mobile communication
-  4G GPRS communication with network roaming SIM card
-  flexible tariffs such as Economy 7 are supported
-  optional In Home Display for added convenience
-  dual fuel integration with optional Gas Pulse Sender

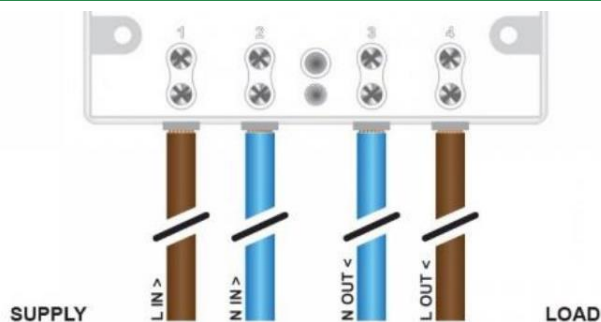

Dimensions

Specification

Meter Part Code	PPEMA1
In Home Display Part Code	PPEMIHD
Gas Pulse Sender Part Code	PPEMGPS
Meter Type	Single Phase
Fitting Type	Wall Mounted
Max. Current (Amps)	100A
MID Approved	Yes
Smart	Yes
Tariffs	Single / Dual
Accuracy Class	B (Cl. 1)
Max. Cable Size	25mm ²
Availability	Next Day
Brand	Emlite

Wiring Guide

Optional Extras

In Home Display

Gas Pulse Sender
