

Fineco - EM115-MOD - Summary Sheet

Summary

The EM115 is our smallest CT operated meter, designed specifically for single phase supplies up to 100 Amps. It comes complete with our T24 split core current transformer rated at 100/5A with a 24mm aperture. It's quick and easy to install and boasts both a pulse and RS485 Modbus output, perfect for linking to BMS systems.

As well as measuring Imported Energy, (kWh), it also measures Exported Energy and Imported & Exported Reactive Energy (kVArh).

N.B. This meter can be pre-wired into a DIN-Rail enclosure. [Click here](#) to see our full range of Enclosures, or [click here](#) to find out more about our Pre-Wiring Service.
