

TIM3100 Coin / Token Meter - Summary Sheet

The TIM3100 Coin / Token Meter is the big brother to our best-selling TIM30. Just as simple to use but with many added features. Time can be set from one second to 99 hours and 59 minutes and the 13 Amp max. load supports devices drawing up to 3 kW.

A pre-start function allows a count down before the connected device operates and a pre-end function allows an audible warning to be given before the end of the allotted time period. A run-on function allows a secondary device, such as lighting, to continue for a pre-determined time once the allotted time has run out. A credit save feature allows customers to pause the connected device, with an optional 'start/stop' fascia available and a resettable coin counter shows how much should be in the coin box upon emptying. This timer can be configured to accept £1 & 20p's, 1's or L2 & L4 tokens, simply select your requirement upon ordering.

Your logo and contact details can be included on the front cover of the timer. If required, select the optional extra and email us a copy of your logo to sales@spwales.com.

While easy to program on site, we can pre-program your meter for you prior to dispatch. Just select the optional extra and enter your requirements upon placing your order, or feel free to call our friendly sales team who will be more than happy to help.

Timer Comparison Chart

Timer	Payment Type	Max Load	Override	Start / Stop	Pre-set Tariff	Pre-Start	Pre-End	Run-On	Peak/Off Peak	Width (mm)	Height (mm)	Depth (mm)
TIM30	£1 & 20p, L2 or L4 Tokens, €1	30A	✓	✓	✗	✗	✗	✗	✗	183	270	93
TIM60	£1 & 20p, L2 or L4 Tokens, €1	60A	✓	✓	✓	✓	✓	✗	✗	183	270	93
TIM3100	£1 & 20p, L2 or L4 Tokens, €1	13A	✓	✓	✓	✓	✓	✓	✗	183	270	93
TIM3200	One or two session cards.	13A	✓	✓	✓	✓	✓	✓	✗	183	270	93
TIM3500	£1 & 20p, L2 or L4 Tokens, €1	13A	✓	✓	✓	✓	✓	✓	✗	183	270	93
