

## Inepro PRO380 - Summary Sheet

The PRO380 from Inepro is one of the most complete 3-phase DIN rail meters on the market. It's MID approved, making it suitable for billing applications, and highly accurate, B (Cl. 1). Measuring supplies of up to 100A, a variety of parameters can be viewed including voltage, current, active power, reactive power, apparent power, frequency and power factor.

It measures both imported & exported energy and displays consumption per phase as well as total consumption. It also features a resettable kWh register, ideal for billing applications, and it offers a range of outputs including pulse, Modbus & Mbus.
