

Emlite EMP1.ax - Summary Sheet

The EMP1.ax from Emlite is a 100A direct connect smart meter and comes complete with a SIM card, connecting it to the popular MeterOnline remote reading service. This 3-phase meter is MID approved and can be configured for dual tariffs such as Economy 7. It can measure both imported and exported energy, ideal for renewable applications and it is set up to measure the most common electrical parameters such as Energy (kWh), Power (W), Current (I), and Voltage (V).

MeterOnline is an online data collection service for smart meters allowing remote access to meter readings. Multiple meters can be linked to one account and the flexible system allows data to be exported, bills to be generated and email alerts to be created. MeterOnline smart meters are supplied with a unique PIN code allowing for self-registration on the system and they offer a number of packages beginning at £14 per year.
