

# Iskra MT174 - Multi-Function Meter - Summary Sheet

# **Summary**

The Iskra MT174-D2 is quite simply the best wall mounted, direct connect, 3 phase meter on the market with regards to functionality and affordability. The meter is MID approved for billing applications and is manufactured in Europe, (Slovenia).

We have set this model up to show some of the most popular electrical parameters, including Active Energy (kWh), Active Power (W), Current (I), Voltage (V) & Frequency (Hz). However, a number of other parameters, as well as multiple tariffs, can be pre-programmed on to the meter as an optional extra

This meter has a single pulse output and an RS485 connection. It is suitable for use in three phase 3-and 4-wire networks as well as single phase 2-wire networks.
